## NEW JUDICIAL DISTRICT CREATED

### LEGISLATURE PUTS OVER A JOB THAT IS INEXCUSABLE.

While in the death throes, the lower House of the Kentucky Legislature Tuesday night passed Senator Arnett's bill to create a new Judicial district composed of the counties of Morgan, Wolfe and Morgan. This takes Morgan county out of the district, leaving it Lawrence, Elliott and Carter.

A strong effort was made to defeat this unnecessary and ill-advised action, but Senator Arnett had secured enough promises early in the session to put it over.

There is not business enough in both the districts combined to require more of one judge's time than should be given.

The change also makes a district of Floyd and Knott, which is another ridiculous proposition. Judge Patrick will be required to move from Mason to Floyd or Knott in order to hold his office. Judge Cisco must move from Morgan to one of the counties remaining in his district.

It is reported that Judge D. W. Gardner expects to be appointed to the new judgeship, and that either Senator Arnett or his brother Floyd expects to be named as Commonwealth's Attorney.

### VALUABLE BARN DESTROYED BY FIRE.

Warren M. Meek, moved from Iupitico in this county to the Belong farm in Floyd county on Thursday of last week and on Saturday night a large barn on the farm was burned, the value being about \$100.00. The origin of the fire is unknown. The loss was severe as the barn was not insured. Fortunately most of the live stock was gotten out, but about 250 bushels of corn, a large quantity of hay, together with farming implements were burned.—Paintsville Post.

### A NARROW ESCAPE.

John Henderson, well known N. & W. fireman of Portsmouth, narrowly escaped being killed in an accident at Fort Guy, W. Va., Tuesday night at 11:40 o'clock.

Henderson was standing on the tender of an engine of an extra westbound freight train when struck by a telegraph pole that had been blown down to a position that caused it to partly lean across the railroad track. He was knocked off the tender but his absence was immediately discovered and he was later found alongside the track. First aid was rendered and soon afterward he was placed aboard an N. & W. passenger train and was taken to Portsmouth. A company surgeon attended him upon his arrival. He had been injured about the forehead, nose and right side of the face but fortunately his injuries are not expected to cause any serious results.—Independent.

### THE "OUIJA BOARD."

Officials along the Ohio have been busy for a month trying to find the murderer of Estella Honey, whose body was found in a small pool of water on January 29, and now the residents of two cities have had "sittings" with the "Ouija board," and strange to say both boards told the same story, saying that she was murdered, that her bat, a large black one, was thrown into the east vault back of a house in Portsmouth, that her murderer spent that night at the Biggs House and is now in San Francisco. The officials have taken up the readings and will try and solve the mystery "by the board."—Exchange.

### BURIED IN LAWRENCE COUNTY.

Elijah Gambill, aged 67, for many years a resident of Morton's Hill near Fullerton, died Wednesday evening. He had been ill all winter with dropsy and heart trouble. In addition to his wife, he leaves one daughter, Mrs. Cora Lyons.

The body was shipped to Lawrence county for burial.

### ATTENDED FUNERAL OF UNCLE.

Atty. James Burns and Mr. Clyde Burns have returned from Grayson, where they attended the funeral of their uncle, Mr. James Seaton, aged 81 years. He was highly prominent and was an old Union soldier.—Catlettsburg Tribune.

### MR. COX WILL GO TO CALIFORNIA.

Enoch S. Cox, of Burnside, has disposed of his farm to H. G. Priest, of Martin-co, for a cash consideration of \$5,600 and will go to California in the very near future to locate. Mr. Cox is a brother-in-law of Col. B. H. Harris, of Kenova.

### COURT OF APPEALS.

The case of Elkhart Collieries Co. vs. Meek, of Johnson-co, was affirmed. Iron vs. Watson, of Elliott, a school trustee case, was reversed.

### A LOUISA MAN WHO IS ALWAYS CHEERFUL.

Speaking of the cheerful fellow, the following letter from a man to his mother-in-law is one of the best testimonials we have seen of such a case. His family and friends believed him to be in bad health and he went to a noted hospital in a large city recently for examination. Many of our readers know the gentleman, but his name is withheld because the letter was not written for publication and fell into our hands rather by accident:

Dear Ma:

I'm here with the doctors. They went over me thoroughly, and into me, too, for that matter; turned over my lights and drilled with my melt, upset my gall bladder, stuck a long tube down into my stomach and syphoned me out and then pumped me up again; X-rayed my stomach, bowels and intestines; thricepeeped me by the hour, first confining me inside with white paint. Then came my legs and hit me with a tomahawk below the knee to see my foot fly up. Breathe deep and breathe shallow, exercise 10 times. Eat nothing for breakfast but the whites of 3 eggs, 3 slices of toast and weak tea, then come up and be syphoned out. Had to do this twice. First time the syphon wouldn't work because I had swallowed the eggs in too large pieces and they stopped up the tube, and the next time I chewed it up so fine that it had all run out of my tummy before they could man the pump, so they couldn't get any of my gastric or otherwise juices. I got even with them there, but they had me going in no time. They did a lot of other things to me that I can not relate in a letter to a lady and finally gave up Friday, Saturday being a holiday and the grunting of the mouth, if they had run over they couldn't have put in their bills until a month later than they now can, and their terms are 30 days net. Well, they failed to examine my head, and you may think there is where they missed it.

They went into my family history, wanting to know what my grandparents died of and if they were still dead. Alas, if any of my brothers and sisters or my sisters' husbands had large families, if any of my wife's folks ever visited me and what my mother-in-law died of. When I told them this important demise had not yet come, they made long and exhausting notes and said that would have a great bearing on the case, and looked me over again this time it seemed to me more feelingly.

So not finding anything wrong with my various works, and having to give an opinion the Doctor says I have Nervous Exhaustion and prescribes a good long rest in California. Said it would be fine to have a little garden and work it myself, but he don't know me. Al. That's not my idea of rest. When I rest, I rest. I kinda felt sorry for them they certainly did work hard in trying to pick daws in me."

### CONSUMPTION CLAIMS 4,696 LAST YEAR

### IN KENTUCKY—REPORT FOR 1915 SHOWS 63,478 BIRTHS AND 28,913 DEATHS.

Bowling Green, March 14.—The vital statistics report for 1915 showing the number of births and deaths for the state, counties and principal cities, the number of deaths in each caused by tuberculosis, typhoid fever and other preventable diseases, and from cancer and violence has just been completed by the Kentucky Bureau of Vital Statistics and submitted by Dr. W. L. Heitz, State Statistician.

There were registered during 1915 63,478 births and 28,913 deaths, giving a birth rate per 1,000 population of 26.6 and a death rate of 12.1. In 1914 there were registered 61,125 births and 30,139 deaths. Of these deaths for 1915, 4,730 were of infants under 1 year of age, 2,342 were from 1 to 5 years old, and 7,454 were 65 years old and over.

Consumption caused 4,692 deaths; typhoid, 704; diphtheria-croup, 540; scarlet fever, 46; measles, 77; whooping cough, 187; pneumonia and bronchopneumonia, 2,385; influenza, 501. Cancer was responsible for 4,090 deaths, and violence (all kinds), 1,683.

There was a reduction of 1,226 in the total number of deaths registered in 1915, as compared with 1914.

Preventable deaths were responsible for 40 of each hundred funerals in 1915 compared with 42 for 1914.

### ESTES THORNBURY MARRIED.

Estes Thornbury, oldest son of Mr. and Mrs. L. R. Thornbury was married recently to Miss Pearl Boggs, a prominent young lady of Jenkins, Ky. Mr. Thornbury, who is a young gentleman of the qualities surprised his parents who had no inkling of the intended marriage and therefore were greatly surprised yesterday on receiving the word. The young couple will be here for an Easter visit.—Catlettsburg Item.

## BIG ADVANCE IN CATTLE AND HOGS

### WITHOUT PRECEDENT IN MANY YEARS, AND DISAPPOINTING TO THE PACKERS.

Chicago, March 10.—A phenomenal advance in the cattle and hog markets this week will appear in its stead. The Eastern Kentucky Journal, which will be a full fledged Democratic sheet, Commonwealth Attorney J. M. Wauchope and Congressman J. W. Fields are, we learn at the head of the enterprise and Mr. A. P. Blight, the owner and editor of the late "News" has a stock in the new concern and will be editor. They have put in a Bacheuk press, a linotype and made other improvements thus having an up-to-date country newspaper outfit. Twenty-five years ago the third of next month, "The Carter County Bugle," was established at which time there was not a printing press in Carter-co. In 1897 "The Tribune" was launched here, and in 1900 "The Herald." On January, 1904, the "Bugle" and "Herald" were consolidated and in 1903 the present firm took hold of the triple combination—Grayson Co.—Ashland Independent.

## Get a Fresh Start!

For men who got away to a false start on a pipe or home-made cigarettes Prince Albert has a word or two for what ails their smoke appetites!

Forget you ever tried to smoke, for Prince Albert is so different, such a fine flavor, so cool and cheerful and friendly, you'll get a new idea of smoke joy! The patented process fixes that—and cuts out bite and parch!

And this little preaching is also for men who think they're on the right track. All to be said is that the sooner you lay out a nickel or a dime for a supply of Prince Albert, the sooner you'll make a discovery that'll be worth a lot to your peace of mind and tongue!

Get the idea of smoking all you want without a comeback—that's P. A.!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!

### YATESVILLE.

The name Keenes Short that came out in our last article should have been Keenes Sparks.

Miss Myrtle Rife, one of our neighbor girls, was thrown by a mule and very badly hurt last Sunday.

Rev. R. F. Rice and Jay Salters are on the sick list, though at this writing Mr. Salter is a little better while the condition of Bro. Rice is still unknown.

Reports say that the John Yates oil well will be shot to-day (Tuesday) but since the great calamity of last Monday as was depicted in the last weeks NEWS the shooting business seems to be somewhat upset and it is hard to state just when the shooting will be done. The well No. 2 on the land of Mrs. Lackey will be drilled in the middle of the present week and it is said that on the round of the next shooter both wells will be shot on the same round. The oil prospects at the John Yates well are excellent.

Jay Collinsworth of Christmas post office, who on account of the sickness of his little brother Charley Collinsworth of Fallsburg passes hero daily and informs us that Charley is in a somewhat dangerous condition with typhoid fever.

Cornelius Holbrook, our new neighbor is clearing out some new ground that he aims to have cultivated in corn this year.

Bascom Thacker has opened up a stone quarry on his farm here and will furnish all the squared stone needed by the neighbors for building purposes.

Mrs. Lydia Marcus of Catlettsburg, has returned home after a sojourn of one month among relatives here and Morgan's creek.

### COUNTRY GREENHORN.

### TWO BEAUTIFUL DOLLS.

## GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

### SAVE YOUR HAIR! DOUBLE ITS BEAUTY IN A FEW MOMENTS

—TRY THIS!

If you care for heavy hair, that glitters with life; has an incomparable softness and is fluffy and lustrous, try Dandarina.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Dandarina at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Dandarina. If even—why not now?

### JATTIE & CANEY FORK.

## How Machines do Our Shorthand, Our Bookkeeping, Our Adding, Our Typing, Our Talking,

No hand work can be as accurate as Machine Work.

Our Shorthand Machine—the Stenotype prints shorthand in just the same letters you learned when you were six years old. No hieroglyphics—just plain A, B, Cs, which anyone can read.

Have you seen it?

Well you have something of interest still to see. Make your mind up to look into this little device to-day. It will pay you to do it.

Don't stand still. Don't go backwards. Remember what you said about the Adding Machine, a few years ago.

Write us about your wishes, your ambitions. You will not be the first boy or girl, by many hundreds we have helped solve the problem of "How to make a living."

Are you thinking of training for a profession or a trade?

We used to say "The quickest way to success in any profession is learning Shorthand." We still say so, but by all means learn it the "Machine Way."

Our School has added Shorthand Machines just as we added, years ago, Typewriters, Adding Machines, Mimeographs, (And we have not forgotten to keep them MODERN), etc., because the Public demands new and up-to-date facilities for making the busy man's work easy.

Modern Bookkeeping is very little like what it was thirty years ago.

Write us about your wishes, your ambitions. You will not be the first boy or girl, by many hundreds we have helped solve the problem of "How to make a living."

### IN MEMORY.

In sad but loving remembrance of Mrs. Trinie Moore, daughter of Russell and Amanda Thompson. She was born Dec. 6, 1874, died Feb. 11, 1916, aged 41 years, 2 months and 5 days.

She was married to W. T. Moore March 14, 1891. To this union was born 10 children, three preceded her to the better world shortly after birth. Mrs. Nellie Thompson of Lenoce, Ky. Avery, Everett, Hubert, Mary, Alie and Alka are left to mourn their loss of a kind and loving mother. She was converted in the year 1890, and joined the M. E. Church and lived a devoted Christian life up till she received her final summons, which we feel sure was welcome by her. She left this world with a smile on her face and said she wasn't afraid of death and we feel sure her spirit took its flight to the God who gave it. The home has lost its sunshine, since mother left us, the husband a loving companion, the children their best earthly friend. But thanks be to God if we all profess Christ as Trinie did and live faithful we can see her again sooner or later.

She was sick for several months before death but was patient and pleasant to those about her. I would say to the children remember mother's advice and shun bad company as she has told you and above all get ready to meet mother. All was done by kind and loving hands that could be.

Trinie was one who loved God above all things. It is so hard for us to understand why she was taken from her kind husband and loving children but we can truly say God's will be done not ours. God in his wisdom knoweth best. He will care for the orphan children as he has cared for others.

May the blessing of God rest upon the heartbroken husband and children and may they be ready to meet the wife and mother when the dead and Christ shall rise.

The family has the sympathy of all their friends.

### Husband and Wife Both Saved From Suffering

I wish to tell you the good results myself and husband received from Dr. Kilmer's Swamp-Root. About eleven years ago I had a severe attack of La Grippe and was confined to my bed about eight weeks under the doctor's care. He pronounced my case kidney trouble and rheumatism and not receiving the results from the doctor's treatment I should have received, I decided to try Swamp-Root. After taking several bottles of Swamp-Root I was able to get up and attend to my work. About a year later my husband was affected with a severe attack of kidney trouble and doctor'd and received no benefit. Knowing of the good I had received, he decided to try Swamp-Root. His condition was such that he was confined to his bed and words cannot tell how he suffered, but after taking Swamp-Root he was relieved so he could go on with his work without pain. I wish to heartily recommend Swamp-Root to all persons afflicted with kidney and bladder trouble and you may publish this letter if you wish.

Your truly,

MRS. A. E. BRIGGS,  
Eldred, Pa.

#### As To You.

Did you give him a lift? He's a brother of man, and bearing about all the burden he can. Did you give him a smile? He was downcast and blue, and the smile would have helped him to battle it through. Did you give him your hand? He was slipping downhill, and the world, so I fancied, was urging him ill. Did you give him a word? Did you show him the road? Or did you just let him go on with his load? Did you help him along? He's a sinner like you. But the clasp of your hand might have carried him through. Did you give him good cheer? Just a word and a smile. Were what he most needed that last weary mile. Do you know what he bore in that burden of care? That is every man's load and that sympathy shares? Did you try to find out what he needed from you? Or did you just leave him to battle it through? Do you know what it means to be losing the fight? When a lift just in time might set everything right? Do you know what it means, just the clasp of the hand?

#### Selected.

#### Starting In Life.

You are soon to leave and break away from all the tender ties of home, and go out to seek your fortune in the world. Let us whisper a few words of counsel. We suppose you wish to be rich; most people do. We don't think riches are desirable. We should be sorry to have inherited wealth. But competence is very desirable, indispensable. Well, the way to get it is by forethought to plan, industry to execute and prudence to keep the earnings of your work. Get what you honestly earn, but never take more. Money by no means the best thing in life. You are here in this world to become a good man, a wise man, a just man, an affectionate man, a religious man. Work for your manhood as much as for money; take as much pains to get, and as much to keep it. Keep clear of vice, especially intemperance, gambling and licentiousness. These three ruin thousands of young men every year. And finally, remember, though absent from the sight of the dear ones at home, you will ever live in their hearts; and their highest earthly wish will be that you prove yourself a noble man.

Truly Farmer Boy.

"Here are two stalks of corn," remarked Sam Jordan as he talked to the fair school boys last year, "both grow side by side in the same hill. One has a fine, well developed ear, the other grew a nubbin. Now would you keep the good ear for seed?" Many of the boys, admiring the fine ear displayed, asserted that it would be added to their seed corn a little fellow in the corner piped up, "I wouldn't have that ear, Master," he said. "Why?" shot back Uncle Sam, pointing a long forefinger at the young corn grower. "Because it grew in the hill with the nubbin," answered the boy, "and might produce nubbins instead of seed corn." "Right you are," said Sam as a slow grin spread over his face. "You can't grow prize winning corn when the parent corn has had worthless associates and prize winning boys like you chaps here must keep out of bad company. If you expect to become topnotch men, get the point, fellows!"

## WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the headaches, tiredness, dreamless, irritability and unless corrected, straight to a breakdown. Correct nervousness, Scott's Remedy is exactly what you should take; its nutriment gets into the blood and blood feeds the tiny nerve-cells while the system responds to its refreshing force. It is free from alcohol. Scott & Bowen, Cincinnati, N. Y.

There is no earthly tie so strong or so sacred as that of motherhood. Society is held together by social ties. Civic societies are bound by money and oaths. These obligations are like girths of steel, let none hold like the marriage bond when violated and unpolted by vile theories.

There is only villainous abominations in the doctrine that leads a creature called by courtesy a man, to announce that a transfer of his affections warrants a breach of loyalty and deceptions of one who has become his wife and the mother of his children.

No guise of prophecy can cover so vile a principle; no charm of poetry gild so hateful a treason, and the breath of perdition is on the lips of all such as advocate anything else than loyalty to wifehood and motherhood.

It is the mothers who hold the world in place. They are the balance wheels of the universe. They hold the scepter of power by controlling the affections of men. The hand that rocks the cradle has controlled armies. Marie Theresa quelled the tumult of a mighty army in Austria by raising her fair hand, and we are told that all was hushed to silence, as in clear, sweet tones, she spoke, "The bravest battles that ever were fought, have been fought by the mothers of men."

## RUB RHEUMATIC PAIN FROM ACHING JOINTS

### RUB PAIN RIGHT OUT WITH SMALL TRIAL BOTTLE OF OLD "ST. JACOB'S OIL."

Stop "dosing" Rheumatism.

It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatic liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Smother up! Get a small trial bottle of old-time, honest "St. Jacob's Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

You may not believe it now, but the day is coming when you will think a heap more of comfort than you will

of pleasure.

Any man with a High School education can make a pretty good Mayor. But it takes a smart man to run a grocery store and make a profit.

It may add a few years to your span of life if you will go through the world with the firm belief that every gun is loaded.

When you feel like telling a man to go to blazes, be sure you pick out a Fireman.

## ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

### GIVE IT WHEN FEVERISH, CROSS, BILIOUS, FOR BAD BREATH OR SOUR STOMACH.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach, sour breath bad; has stomach-ache, sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

## ANNOUNCEMENTS.

WM. TAYLOR, of Glenwood, announces that he will be a candidate for Sheriff of Lawrence county, subject to the action of the Democratic party in the next primary election at which candidates for Sheriff are to be nominated.

We are authorized to announce Congressman W. J. FIELDS, of Carter-co., as a candidate for re-election, subject to the action of the Democratic party at the primary to be held in August, 1916. Your support is respectfully solicited.

Friday, March 17, 1916.

The last days of the Legislature were marked by fights and near-fights and general disorder.

The Senatorial redistricting bill placing Lawrence with Johnson, Martin and Boyd counties, was not reached in the House and therefore did not become a law. Thanks.

The Holy Land is being prepared by the German-Turk forces for a possible invasion and a shooting range has been established on Mount Calvary, as one of the defenses of Jerusalem.

Governor Stanley sent to the Senate the appointment of James A. Breathitt, Hopkinsville; James M. Patterson and Charles B. Nichols, Lexington; Frank McKee, Woodford-co., and Jas. W. Turner, Paintsville, as members of the Board of Trustees of State University at Lexington.

By taking prisoners from a jail and putting them to work on the public roads, thus depriving the jailer of his fee for their keep, is not changing or altering an official's compensation during his term of office as prohibited by the Constitution, the Court of Appeals held.

The Kentucky Legislature, as usual, has done its worst and adjourned. Every time this biennial bunch holds a session we all awake to the fact that the system is wrong. What does the average member of the Legislature know about making laws and what chance has he to learn the trade in 60 days?

By the way, speaking of trades, the hoss-swappin' fellows are the ones who get things through that distinguished body known as the Kentucky Legislature. Look at the new judicial district bill. Everybody knew it was wrong and nearly all who voted for it admitted as much in private. There was not a single argument in its favor. What a grand body of statesmen!

Benjamin F. Shively, Democratic United States Senator from Indiana, died in Washington Tuesday. He was one of the ablest members of the Senate and was just starting on his second term as Senator. His health has been poor for quite awhile and he had not been in the Senate Chamber since December. His death is a positive loss to the country and to his party.

Several days ago the resourceful Mexican bandit Villa crossed the border into the United States and raided the town of Columbus, N. M., killing a number of citizens and carrying away a considerable amount of loot. President Wilson immediately took steps to send troops into Mexico to capture Villa. President Carranza has agreed to the invasion and the soldiers of the two countries are now searching for the outlaw, who has a considerable number of men with him. Much difference of opinion is expressed as to the possible outcome of the matter, but all true Americans agree that the action taken is entirely proper.

Teddy Roosevelt has given out a statement that for audacity and gall surpasses anything heretofore issued by the wild Bull Moose. It refers to his candidacy for President this year.

He says "it would be a mistake to dominate me unless the country has in its mood something of the HEROIC. This is one of those rare times which come only at long intervals in a nation's history. Such times were those from 1776 to 1789, in the days of Washington, and from 1858 to 1865, in the days of Lincoln. It is for us to-day to grapple with the tremendous problems of our own hour in the spirit and with the ability of Washington and Lincoln."

Which, being easily interpreted, means:

Oh, please elect me President. I am the Prize Hero—the Bull Hero of the world! Give me a chance to pull the hero stuff that I feel surging in my wild and woolly make-up. War! War! Oh, for a chance to plunge this country into war! My lucky star will give me from annihilation as it did when the negro regiment on San Juan hill in Cuba came to my rescue in the nick of time. Fellow countrymen, you need a Washington and a Lincoln this year, and I am they. "I will not enter into any fight for the nomination," so the public can notice it, but I am sitting up nights praying and scheming to have it thrust upon me. Washington and Lincoln took on only one enemy country apiece. I would make them look like pikers in history, with my half dozen or more nations fighting back at me. Wash and Link had only a few thousand followers slaughtered in battle. I would have millions of ro-

bust young men to die for their country. What a glorious sight! It would be to see them give up their lives for the slaking of my thirst for blood! That little revolutionary war and the skirmish between the States were child's play compared to what would happen in MY war, with the big guns and the rapid fire smaller ones. Oh, what joy it would give me to fight the whole world. Look at me! I am the Great War Lord, the Napoleon of America!

In the same ridiculous article Roosevelt urges that Republicans be sent to the Chicago convention "unhampered by any pledge, to act in the same spirit as did the original continental Congress." That Congress declared war and that's what the untrained and ferocious Roosevelt wants. It is Presidential that he has not been President during the last three years.

That fellow's "nerve" is one of the wonders of the century. After fighting and deliberately wrecking the Republican party in 1912 he comes along in 1916 seeking nomination at the hands of the regulars of that party.

In not one line of interior business in the United States is there the slightest recession from the activities of the past 10 months, and in many of them the pressure for the greater expansion is very marked.

The magnificent earnings of the leading railways, the continuance of the demands for freight cars, notwithstanding the many thousands of new cars and the other thousands of old cars repaired and put into service during the last year, these are so encouraging that the railroads are ready to place large orders for all classes of materials and supplies urgently required, but the difficulty now is to obtain these in any reasonable period of time.

These are red-letter weeks and months of earnings for the railway companies, and their new prosperity enables them to become a most powerful and influential factor in the extension of prosperity to other lines of business. Like many of the bankers, many of the railway managers have learned the lesson that "live and let live" is the true motto of dealing with their patrons, and that a despised population is inimical and dangerous, while a fairly treated and contented people make for the profit of the loaning and the transportation interest as well as for profit of industries and commercial interests. There is a wave of good times in this country now.—Cincinnati Enquirer.

LETCHER COUNTY  
AND WHITESBURG.What is Happening in this  
Rich Coal Territory  
of Kentucky.

WHITESBURG, KY., March 15.—One of the most heart-rending tragedies enacted in the county in years took place on Shear's Fork of Boone near McRoberts in the coal fields at an early hour Wednesday morning when the little home of Jeff Wright, a young farmer of Shear's Fork was destroyed by the ravages of the flames and the little three-year-old son cremated therein. The mother was cleaning away the dishes in the dining room adjacent while the three-year-old and the one-year-old were alone in another room—a log house. In some manner the house got on fire. Screams were heard to come from the house, and "mother I'm burning up" came a child's voice. The mother ran. She braved smoke and flames through the house, but could find nothing of the three-year-old. Lifted the little one-year-old from the bed she carried it to safety, although both the mother and child received what were considered fatal burns about the head, face and arms. Every whit of hair was burned from the mother's head. The father, who was a short distance away feeding the stock, heard the wife's screams and ran just in time to see the falling walls crumble to the earth. Later the charred and unrecognizable remains of the three-year-old were found. The sympathy of the entire community is centered upon the stricken family. Jeff Wright is a son of Uncle Sol Wright, one of the county's oldest and best known citizens.

Mine No. 215 of The Consolidation Coal company at McRoberts burned for three or four days last week, having caught it is said, by an explosion on Monday afternoon. The first report stated the fire was caused by an electric wire. Much damage was done to timbers, trackage, machinery, etc., besides great quantities of coal went up in smoke. Several cars of loaded coal and a large quantity of lumber is said to have been destroyed, also. Every effort to check the flames ravages proved futile for a time, but at length the fire was put out. Company officials report the damage extremely heavy, and it will be sometime before the mine can be put into condition for mining work to resume. Before the fire, No. 215 was turning out more coal than any of the other mines there, from twenty-five to thirty cars daily, and about 150 men were employed. They were put out of work. It is expected that the whole damage can be safely placed at thirty to forty thousand dollars.

As proof conclusive of the effective work being done by revenue officers, with John M. Riddle U. S. Marshal at the head, within the past few months in Letcher-co., especially in the coal fields section about two hundred people, witnesses and those charged with moonshining and bootlegging left here Monday morning for Frankfort to be ready for the March term of the U. S. Court which convened Monday. A large percentage of the cases had been set down for Monday and Tuesday. Several women, charged with peddling and bootlegging whiskey, compose the large number of the accused. It is hoped that the strong efforts being made by the Government will lend a "chance" to the great evil of strong drink that is sweeping nearly every county in the mountains, causing much lawlessness and crime as a result. The day is dawning when the bootlegger and the moonshiner will be forced to give up his illegal traffic.

Agreeable to a promise over the telephone Emory Hall of the headwaters

of Rockhouse creek walked six miles to Neon Station Friday and gave up to Marshal Riddle on charges of bootlegging whiskey, thereby establishing a precedent. Hall left for Frankfort having the good will of the marshal who will make it just as light for him as is possible, doubtless.

A few days ago the Elkhorn Coal company, through its manager, J. Henry Hall, purchased a tract of about 100 acres of coal lands, the J. C. Day tract, immediately below town and promises an early development of the property which will mean much to Whitesburg and the section surrounding. It is expected that active development work will start pretty soon. This is one of the progressive new companies of the county and is making money, they having an operation at Kona Station above there. At that place they have acquired additional holdings and plan the opening of another mine and doubling their capacity within the next sixty to ninety days. Quite a number of miners houses will be built. At least 100 additional hands will be given work.

It is planned by the South East Coal company, according to latest information that they will start the initial work preparatory to another development, long planned, the Tilden Wright tract between Thornton and Millstone about April 1. With the coal business booming, the market conditions greatly improved, there is no reason to believe that this operation which has been planned for about a year will not soon become a reality.

S. Tilden Wright, of Craftsville, is also making plans for another coal development in that immediate section, the Webb Branch tracts, at Sergeant. If indications count for anything the initial work will start within sixty days. With developments on Cilly, Millstone and Thornton, aid heavy increases in the Boone's Fork territory the whole of the field in the upper end of the county will soon be turning out an immense amount of coal. Already the work of coal mining is being prosecuted with much vim and vigor and it looks like the railroad people have about all they can do at this time, despite what is coming for the future. It is now with much difficulty that passenger trains are operated over the North Fork Branch of the L. & N. due largely to the great number of coal trains going out from the big coal fields.

Grant Vanover and others of Elkhorn creek are organizing The Vanover Coal company immediately below Jenkins for work on the line of the Baltimore & Ohio railroad where they will develop a fair sized coal tract of the main Elkhorn coal. It is expected that the organization will be completed within the next thirty days and plans completed for the initial work. It looks like Letcher county is going to get a good lot of new operations for this year, all of which will mean even greater things for the county, giving employment to a large number of her native people.

Louis Pilcher made a campaign in the coal fields section, speaking in Fleming, Neon and Seco in closing his work by addressing a large crowd at Mayking school Friday night on his Progressive Pledge Temperance fight to put down whiskey and its evil influences. At Neon where much whiskey, beer and other strong drinks have been sold for some time he received assurance of the good citizens of the town and community that they would lend him their undivided support and influence in his efforts to reform the place.

A large number of life pledges however, were made at each point, and the importance of the fight Mr. Pilcher is making for the betterment and upbuilding of Letcher county is growing daily.

Mr. Pilcher is a forceful, graceful manner details in all its gory the demon work of the grog shop which is causing such a wave of sorrow and distress all over the country, the demon that causes more distress than all other evil agency combined. Oh, for a better day to dawn.

Owing to the heavy traffic and the continued rains of the past month the streets of Whitesburg are in a deplorable condition from mud. A glance at the condition ought to inspire her people for improved streets. Another winter should not pass until the good people of the town comes to her rescue, get together and make plans for the work to be done this spring, summer and fall.

Just a little extra tax from each voter will do the work and it will pay dividends thousand times and more, or why not vote a bond issue for forty or fifty thousand dollars with which to build streets. The stranger coming to Whitesburg will look with wonder and amazement upon the condition of her streets, then they will turn to our native mountain sides teaming with tons of rich coal beds and tall towering oaks monarchs of the forest, and the vast development forces, expending their millions in the coal field immediately above. Whitesburg has a great future, the brightest future, no doubt of any town in Eastern Kentucky but she's lagging. Hazard has built streets, so has Jackson, Princeton boasts of her miles of brick streets and other county seat town are following in their steps. Let our good citizens wake up, the time is ripe that something must be done. Let it be done this year.

We have some of the best farms in Mason, Fleming and adjoining counties for sale. Also Southern Ohio farms. These farms will run from \$60.00 to \$150.00 per acre in most any size you want, are well located on turnpike and convenient to school and churches. We believe our land when quality is considered is relatively cheaper than any lands in Kentucky. Our tobacco production is about the largest of any county in the State, and we will average more pounds per acre than any other county. If you are looking for a nice home come and see us, as will show you something good.

## BIG SANDY NEWS.

Our Ladies Coats For Spring  
Are Entirely Different

There's a springtime harmony in their makeup that will please you much

They are made, in most cases, large and roomy. Some have sleeve and collar in unity with yoke but collars in the majority of models, are different.

The New Sport Coats Are  
Glorious With Color

It seems right and proper, indeed, that these swagger coats for young women should be a law unto themselves as to shade and fashion, too.

The lovelist of Blues, Rookie Browns,

Delicately Tinted Over Plaids  
Apricot and Gold.

In fact most any color that is favored just now.

All of these are being shown, together with the rich whites, many of which are effectively trimmed.

Angora, Gofthair, Chinchillas and Stockinet Cloths are the leaders in these jaunty sport garments.

## A New Sweater Coat

Coats trimmed in Maribou of contrasting color, in these garments the brighter colors are featured. Surely Fashion has made her supreme effort on this season's coats—and our assortment is unusually interesting as to quality and price.

Cheer Up!

Just grin at old Worry.  
He'll leave in a hurry,  
A smile will drive trouble away;  
Put Yesterday's sorrows  
Away with To-morrow's,  
And think of the joys of To-day.

### HARRY McCLURE.

Another pioneer of Kentucky Methodism has passed away, our dear brother, Harrison McClure, who died at his old home just below Chapman, Ky., at the advanced age of seventy-five years. "Uncle Harry" as he was called by many friends and relatives, was married to Sarah Dobbins in the year of 1866, and to this union was born seven children, four boys and three girls, all of whom are living, this being the first death in the family in the fifty years of their married life. It brings a flood of sorrow to their hearts. Uncle Harry was a member of the M. E. Church at Gallup, Lawrence county, Ky., having united with this church in his early manhood days, and he erected the family altar which was not suspended until the night of his death. Uncle Harry was a faithful worker in the church, and devoted his time and service in helping to build up Methodism in this part of the state. Uncle Harry departed this life February 21, 1916, at eight o'clock, lacking but four hours reaching his seventy-fifth birthday. He has fought the good fight, and finished his course and kept the faith, and he has gone to receive the crown that is awaiting him there, and I, being his pastor, can say of a truth that brother Harry McClure has lived up to his vows that he took in the M. E. Church while he was yet a young man. He brought his seven children up in a home of prayer and taught them the way to the foot of the cross, where they found peace to their soul. I was with brother McClure the last seven hours of his life, singing and praying and talking with him about his future home. He told me, clasping my hand with his, that all was well with his soul, and just a short time before he died he joined in singing the song he loved so well—"Jesus Lover of my soul," and in a few minutes he fell sleep safe in the arms of Jesus.

The funeral took place at the old

home place. There was a large concourse of friends and loved ones at the funeral, which was conducted by the pastor, Rev. Murphy Hill, of Gallup, Ky., assisted by the Rev. N. H. Young, pastor of the M. E. Church, Louisa.

Sister Sarah McClure, wife of the deceased, is not expected to live, she having the same kind of illness that took uncle Harry. We have but little hope of her recovery.

REV. MURPHY HILL, Gallup, Ky.

### IN MEMORY.

On Friday, Feb. 11, 1916, the home of W. T. Moore was turned into mourning and grief when the angel of death paid a visit and took from him his beloved wife, Trinnie. She was the daughter of Russell and Amanda Thompson, was born Dec. 6, 1874, was married to W. T. Moore March, 1890 and was always true and devoted to him. To this union were born ten children, three preceding her to the better world.

Mrs. Jay Thompson, Everett, Arley, Hubert, Mary, Alta and Alka are left to mourn the loss of a good mother. The youngest was hardly three years old.

Trinnie was a good woman, loved by all who knew her. She was converted when quite young and joined the M. E. Church, being a true and devoted member. I would say to the heartbroken husband, weep not, as those that have no hope; but live as faithful as your loving wife did and some day you will hear the Lord say, "come and dwell with your loved ones for ever and ever—never more to say good by."

Children, live a true life and a life that after death you can see mother again in a better world.

The golden gates were open wide. A gentle voice said "come," The angels from the golden shore Welcomed our loved one home.

A FRIEND.

A black and white checked worsted is banded, collared and cuffed with heavy black satin for this suit. Wide rovers and black patent leather belt are the interesting motifs. Please observe the trim sailor with a leafy crown topped by a perky pink rose.

### ON MOVING.

Common Sense Hints to Make a Move Somewhat Easier.

Few people move right, and it is a good plan to know how to pack things for moving, even though you are not threatened this year. When you know you are going to move begin at once to save newspapers and boxes. Several small boxes are more practical than the large packing cases sometimes used. They are not so hard to handle and consequently receive better treatment.

For the same reason barrels are more advisable than boxes for dishes or fragile articles. If boxes are used for this purpose they should be conspicuously marked. When preparing pictures or mirrors for shipment it is considered a good plan to wrap and crate them instead of boxing, so people handling them can see what they are in the same way a strip lid adds to the security of the box of glass fruit jars or similar articles. Books should be packed in small, strong boxes. Of course the way things are packed depends largely upon their destination. When hauled in a van they require comparatively no packing, the movers assuming all responsibility for scratches and breakage. When preparing for shipment the packing cannot be too carefully done. This work should also be guaranteed. In case your effects comprise more than one load it is essential that the first one should contain the carpets, the dining room and kitchen equipment, for, while they are the last things needed in the old house, they will be demanded first in the new. The importance of carefully made pinions cannot be too highly emphasized, nor can the advantages to be derived from securing the expert and competent services of a reliable moving concern.

## Kentuckian Robbed

Lexington, Ky., Feb. 17.—Word reached here that Edward Noland, who recently had been awarded \$11,000 for damages sustained in a railroad accident, had been robbed of almost the entire amount at his home near Eubanks, Ky., last night.

Noland had just collected the money, and after paying his attorney had taken it home with him and placed it under his pillow. He and his family were chloroformed while asleep, the report says.

If he had put his money in our Bank he would not have lost it.

## FOUR DIE, TWO INJURED IN EXPLOSION.

Four men were shot into eternity when the boiler of the Pikeville Planing Mill & Supply Co. in South Pikeville left last Monday morning, and two others are badly injured though they will live. The dead are, Sam Wolford, fireman, Andy Robinson, Brack Adkins and his son Aiden Adkins, 17, and the injured are B. Justice and Harry Ritch. The lower half of the mill was totally wrecked by the explosion, and some of the machinery including a boiler was blown into the river on one side and far up on the hillside in the other direction. Other men who had business at the mill narrowly escaped death by being a few minutes late. Among these are, W. H. Staten, foreman, and John M. Triplett. The cause of the explosion is a mystery. It was felt for miles around and many miles took it for a violent earthquake. The woodwork around the machinery was blown into splinters and twisted iron and pipes were strewn over the open field in which the mill was situated.

Taibert Adkins, who was not so near the boiler, was not instantly killed, and he was hurried down town, but died about three hours later.

Harry Ritch was badly bruised and had his arms and legs broken, and Justice's injuries were mostly about the head. He was moved to the office of Dr. Z. A. Thompson on a stretcher where his wounds were dressed, and there is hope for his recovery along with Ritch.

This is the most serious disaster that has ever occurred at Pikeville.

The remains of Andrew Robinson, aged about 30, were laid to rest in the Luke Sword cemetery Tuesday afternoon with a fitting ceremony by the members of the Pikeville Lodge No. 294, I. O. O. F., of which he was also a member. The religious rites were held in the Island creek Tabernacle, Rev. M. C. Reynolds delivering the funeral sermon.

The other funerals followed on Wednesday.

## DEPUTY SHERIFF SHOT; FOREMAN HELD.

Deputy Sheriff Thomas Hackney was shot in the leg, though not seriously, near the mouth of Pond creek in this county last Saturday morning and Wade Vires, a section foreman for the Pond Creek Railway Co., is held charged with the shooting. The trouble is said to have come up between the men over some children, and Vires and Hackney engaged in a fight before the former received the wound in the leg. Vires afterwards made his escape across the state line into West Virginia and was arrested and placed in jail at Williamson, but was later turned over to Deputies Anse Hatfield and Allan Smith of this county and brought here Monday to await a hearing at the next term of the circuit court.

His feelings are said to have existed between the men for some time.

## SUNDAY DISTURBER SHOT AT POLICE CHIEF.

James Spear of Tolar's creek lost a valuable horse last Sunday morning in a pistol duel with Chief of Police Sidney Trivette one mile below Pikeville. It was charged against Spear that he had fired his revolver a number of times just below the Jefferson Hotel on Pike-av. on his way out of town Sunday morning while slightly intoxicated.

A few minutes later Trivette and officer Grover Maynard started in pursuit. Spear rode leisurely out of town and stopped to spend a few minutes at a store in the Cline addition. When he got wind of the pursuing officers he mounted his horse and fled with Trivette in close pursuit. Spear is said to have turned in his saddle and fired at close range at Trivette, and in reply Trivette drew his revolver and shot the horse from under Spear, who then submitted to arrest. The officers then brought their man back to town and locked him up to await a hearing before the Police court on several charges.

## PROF. HARLOWE HERE.

Prof. A. C. Harlowe, President of the Prestonsburg Baptist Institute and Managing Editor of the Post of that city, was at Pikeville for a brief business visit last Saturday, and while here was in conference with editor W. L. Morris of the Pike County News.

Prof. Harlowe is well and favorably known throughout the Sandy Valley and during recent years has done a great work as an educator among our people. He is a thorough business man and gentleman of sterling character who has honestly earned the respect of the Sandy Valley people amongst whom he has chosen to live. If he ever decides to locate at Pikeville he will be thrice welcome, and the good town of Prestonsburg has ever reason to be proud of such a first-rate citizen.

## HEAVY STEEL.

The C. & O. steel-laying crew reached Pikeville last week with the hundred-pound steel which is to take the place of the light steel that was put down when the road was first built into the upper Sandy. This, it is hoped, will do much toward averting the disastrous wrecks that have occurred on the Big Sandy branch during the past winter.

The C. & O. should now devote some energies toward the improvement of depots along this line. The station house at Pikeville is altogether inadequate for the large volume of business it is required to handle. While the thriving town of Pikeville has spent hundreds of thousands of dollars since this road was built in putting up some beautiful and needed public buildings and making other improvements, the C. & O. has done practically nothing, and the station house here is sufficient only for a country station, and we cannot even boast of a passenger shed, which would be as beneficial to the railway company as it would be to its customers.

## BOY KILLED BY FREIGHT AT SHELBY.

Wilson R. Moore became the victim of a freight at Shelbiana station last Thursday night. Moore's home was in

Elkins, West Va., and he had stopped off at Shelbiana on his way through to Virginia. Both legs and the left hand were taken off and he was dragged several yards and received other injuries. Though horribly mangled, he lived for about thirty minutes and was able to give directions that enabled the authorities to communicate with his relatives regarding the disposition of the body. The body was shipped to Pikeville Friday morning and was prepared for burial by undertaker Call. In the meantime advice arrived from Elkins directing that he be buried here, and later another telegram arrived saying to hold the remains for the arrival of relatives; but the remains had already been interred Sunday morning before the last telegram reached the addressee here.

## LANGLEY TO FAVOR CAPITOL PROHIBITION.

In response to a petition sent from here some weeks ago asking that a measure be passed by Congress providing for prohibition without referendum in the District of Columbia, Congressman John W. Langley, to whom the petition was directed, replied by letter to each of the signers that he would cast his vote agreeably with the wishes expressed in the petition, and stated that he thoroughly agreed with the views expressed therein.

## OPENS BRANCH OFFICE.

The Seward's Insurance Agency of Pikeville has recently established a branch office in the thriving town of Hazard, Perry-co. This office is located in the Wooten & Morgan building at Hazard and will be under the charge of young Mr. Everett H. Sowards, who has in a short time developed an expert knowledge of the insurance business. He has recently spent much time at Hazard.

## BRIDGE CONTRACTED.

The contract for the building of the bridge across the Tug river at Williamson, which is to be paid for jointly by the counties of Pike and Mingo, was let early this week to the Virginia Bridge & Iron Co., of Roanoke. Mingo county accepted the bid late last week and Judge H. H. Stoddard wired this county's acceptance.

## PREPARING FOR SUMMER DAY CURRENT.

L. L. Stone, manager for the Sandy Valley Light & Power Co., expects to switch the day current into service at Pikeville about May 15th. The machinery to be used temporarily for this service is now on the way and an addition to the power house was started Monday morning for the housing of the new machinery, which will consist of two high-speed engines and two generators of the alternating current high voltage type.

## REVIVAL OPENED.

A revival service to continue indefinitely was opened at the First Methodist church Tuesday evening. The revival is in the hands of the pastor, Rev. M. C. Reynolds, the District Superintendent, Rev.
